

Media Release -9 June 1999

WEST COAST NATIONAL PARK: LANGEBAAN LODGE HOTEL AND BUSINESS DEVELOPMENT: PUBLIC INFORMATION SESSION

South African National Parks (SANP) wishes to inform the public and prospective developers that a further participation forum will be held, pertaining to the outsourcing of the development of the Langebaan Lodge site. This decision is a result of market feedback and a realisation that certain aspects needed to be clarified and comprehensive information made available, prior to inviting further requests for qualification for the development of the site.

The development process will commence with an informative workshop to be held on 21 June 1999 at The River Club Conference Centre in Observatory, Cape Town at 10h00 until 14h00.

Comprehensive documentation will be made available and uncertainties of the previous workshop will be clarified. Representatives of the various stakeholders will be present to answer any questions.
