Kruger National Park is looking forward to welcome day visitors

Please take note that at this stage we will not be able to accommodate overnight tourists, and we trust the following guidelines will help you to better plan and enjoy your day trip to the Kruger National Park.

Before you leave home

**Make sure you have had no exposure with a suspect or confirmed case of COVID-19, in which case stay at home!**

- The Park will be imposing strict quotas to minimise congestion, therefore guests are encouraged to pre-book and pay on-line for day visits. The following gates will be open: Malelane, Paul Kruger, Crocodile Bridge, Phabeni, Orpen, Phalaborwa and Punda Maria. Check body temperature and any clinical symptoms (cough, fever, dry throat, difficulty breathing) of everyone in your travel group. Anyone with a temperature above 37.3 °C or experiencing any clinical symptoms should remain at home. Pack a rubbish bag: help us by removing all the waste you generate while visiting the park. Make sure each member of your travel party has a mask and sufficient hand sanitizer to frequently disinfect hands. Take note of the COVID-19 travel restrictions with regards to number of people per vehicle (70% vehicle capacity), inter-provincial travel and persons that can travel together.

Upon arrival

- Firstly we apologise for any delays you may experience at our gates during your check in, but trust you understand that protocols in place are in the interest of your safety. You will be asked to fill out ‘Gate registration form’ (these can be found on-line and will make things run smoother if they can be printed and filled out ahead of time and handed to the gate official upon arrival). You will be temperature screened at the gate, and asked to confirm that you are not experiencing any clinical symptoms before you are allowed to enter.

While in the park

- All general park rules still apply. Plan your route so that you will not be crossing any provincial Borders; enter and exit in the same province. For the first week, only bathroom facilities at the entry gates, main camps, and large picnic spots (Nkuhlu and Tshokwane) will be open. Plan accordingly. Though restaurants will be closed for sit-down dining, we will offer limited take-away menus and snacks at the shops at the larger camps (e.g., Skukuza). No Braai facilities at picnic areas will be open at this stage. Filling stations will operate 09:30 to 17:00 daily. Wear a mask and practice strict social distancing at bathrooms, and public spaces.

If you experience any clinical symptoms while in the park, immediately avoid contact with people outside your travel group, keep on your mask, exit the park and seek medical care. The COVID-19 Emergency hotline is: 0800 029 999. WhatsApp Support Line: 0600-123456. For more information about our Parks, visit our website: www.sanparks.org
