EXPRESSION OF INTEREST IN TOKAI CECILIA MANAGEMENT FRAMEWORK

SANParks announces that Table Mountain National Park (TMNP) will commence with the stakeholder and public engagement process for the review of the Tokai Cecilia Management Framework. The intended first review of the framework was delayed in 2015 by the Peninsula fires, the 2016 to mid-2018 litigation process, and the subsequent Covid-19 pandemic made direct public engagements in this format not possible.

The review will commence with a facilitated public engagement session with all stakeholders and interested groups. The facilitation process aims to find realistic and viable options and scenarios for the future of Tokai and Cecilia areas as vital management sections of the TMNP, similar to areas such as Silvermine and Noordhoek wetlands, which were also subject to significant changes upon being incorporated into the TMNP.

Towards the review of Tokai Cecilia Management Framework, please register as follows:
