The Garden Route is easily accessible by road or air (see box on opposite page for air access). The biggest commercial centres in the region are **George** in the west, **Knysna** which is centrally situated and **Plettenberg Bay** in the east. Extensive shopping centres (with the biggest one just outside George on the N2) and fuel stations are in abundance in all 3 towns. Visitors to the Garden Route are spoilt for choice when it comes to restaurants and attractions. There is no better way to enjoy and feel part of the Garden Route than staying over at the Park’s Rest Camps.

**COMING FROM THE WEST (CAPE TOWN) OR NORTH (GAUTENG)**

The natural entrance to the Garden Route from the direction of Cape Town is along the N2 to George. If coming from the north you will enter from the N12 via Beaufort West and Oudtshoorn through George. If you need to stock up with provisions the Garden Route Mall is to be found at the confluence of the N2 highway and Knysna Road, and within close proximity to George Airport. The first Garden Route National Park Rest Camp coming in from the west is Ebb & Flow which is 3km from Wilderness village, 15km from George, 410km from Port Elizabeth and 450km from Cape Town.

**AIR ACCESS TO THE GARDEN ROUTE**

George Airport is situated approximately 7km from George city centre, has scheduled flights to Cape Town International Airport, King Shaka International Airport (Durban) and OR Tambo International Airport (Johannesburg) serving over half a million passengers per annum.

*It is less than 30km from George Airport to the Wilderness’ Ebb & Flow Rest Camp.*
When leaving Wilderness’ Ebb & Flow Rest Camp, head east along the N2 crossing the Swartvlei Estuary and on to the village of Sedgefield. Drive through Sedgefield and pass the only freshwater lake in the system, Groenvlei. Continue on and enjoy the sweeping views as the N2 winds its way into the popular town of Knysna along the Knysna Estuary. The SANParks regional office building can be found on Thesen Island – from here you can obtain permits, complete bookings and collect information for the rest of your trip.

Alternatively, when leaving Wilderness take the Hoekwil forest road to the Woodville Big Tree and picnic site. From here either work your way back to the N2 entering just west of Sedgefield or continue on the forest roads to the mystical Goudveld and Millwood forests to the north of Knysna.

Back on the N2 just exiting Knysna, take a left onto the R339 and travel inland to the Diepwalle forest where wooden camping decks are situated high in the treetops. See page 28 for more information on this forest’s accommodation and attractions. The shortest route from the Wilderness to Knysna is only 45km on the N2.

From the Knysna area it is approximately 65km on the N2 via Plettenberg Bay to the Tsitsikamma’s rustic De Vasselot Camp in Nature’s Valley. From here, head back onto the N2 and travel east to The Tsitsikamma’s Storms River Mouth Rest Camp. The turn-off to the right is just under 40km from Nature’s Valley (just before the quaint village of Storms River) and then its a further 6km to the Storms River Mouth Rest Camp with its many activities and attractions.

**COMING FROM THE EAST (PORT ELIZABETH, EAST LONDON) AND KWA-ZULU NATAL**

The entry point here is also via the N2, only from the eastern side. From Port Elizabeth travel westwards via Jeffrey’s Bay and take the Storms River turn-off to the right after about 180km. The directions from thereon will be the reverse of the George side entry.
Looking for tranquility, an action packed holiday, or a bit of both? Wilderness is your playground.

Experience whales and dolphins at Dolphins Point, go boating or fishing at Island Lake or hike to the waterfall above the Ebb & Flow Rest Camp. You don’t need to be super fit to enjoy the natural beauty of the area. Take a stroll along a forest path or visit one of the five bird hides situated along the still banks of the rivers and lakes.

Paddle down the dark rivers in a canoe (which can be hired at Ebb & Flow) and watch the world float by. Camp under the stars alongside the river or stay in log cabins on stilts.
GETTING TO WILDERNESS

The Garden Route National Park, Wilderness, is situated close to the N2 highway, 16km from George and 3km from the town of Wilderness. It is 410km from Port Elizabeth, 47km from Knysna and 450km from Cape Town. Make sure to absorb the pristine beauty of the protected Lakes on both sides of the N2. The closest airport is in George, where car hire facilities are available. Guests visiting Wilderness’ Ebb & Flow Rest Camp, please note the road sign on the National Highway (N2) to the Park reads ‘Garden Route National Park Wilderness’. Entrance to the Ebb and Flow Rest Camp will only be via the main gate in South Camp. GPS coordinates: -33.994 698° South (Latitude) and 22.606 635° East (Longitude).

CARAVAN AND CAMPING

Both South and North Camps have caravan sites and campsites on the banks of the Touw River with communal ablutions and scullery facilities. Some sites at Ebb & Flow Rest Camp are equipped with 220v power points. These power points are for caravan plugs only; to be able to use a normal three point plug you need the applicable adapter. Pre-approval must be obtained from management if additional tents are required on the campsite.
A WORLD OF LAKES

The Wilderness area of the Garden Route National Park stretches from the Touw River mouth in the west to the Swartvlei estuary in the east and beyond, where it links with the Goukamma Nature Reserve, giving welcome protection to five lakes and the Serpentine River, which is the winding strip joining Island Lake to the Touw River at the Ebb & Flow Rest Camp.

Island Lake is the first in this chain of lakes and owes its name to Drommedaris Island located at its center. Langvlei (long lake) was formed when the sea level was much higher and owes its name to its shape, which seems particularly elongated when compared to the other four. Rondevlei (Round Lake) is 143ha and an old wind deflated basin inundated with seawater. This Ramsar site is a very important habitat for several rare bird species. Swartvlei (Black lake) covers some 1100ha and is the largest and deepest of the lakes. It is a veritable birding enthusiast and salt water fisherman’s paradise.

The Knysna Forest is world famous for its magical beauty, dark and mystical retreats and giant Outeniqua Yellowwoods, some of which are more than 1000 years old. Other prominent tree species include Stinkwood and the pink-flowered Cape chestnut. It has achieved a mythical and permanent place in South African literature through the works of writer Dalene Matthee who found inspiration for numerous novels in the heart of the forest.

The name Knysna, a Khoi word, is most popularly thought to mean ‘place of ferns’, in reference to the dense forests. During the early parts of the 19th century, the Knysna forest was home to hundreds of elephants. This period however, was witness to a growing market for ivory and habitat transformation so that by 1890, the once large elephant population was virtually wiped out, leaving only four remnant populations. Today it is believed that only a few isolated individuals roam these dense forests.

Today these forests offer endless walks and hiking trails including a wide selection of cycling routes. Discover rivers, waterfalls and a mass of flora amid giant indigenous trees. Bird watchers should keep a lookout for the famous Knysna Lourie (Knysna turaco) with its distinctive white-tipped crest.

The Diepwalle Forest holds many cultural stories, sites and artefacts. The “Self-Drive Route” consists of 10 places of cultural interest, between the Diepwalle Forest and Gouna Forest. Each stop makes a particular contribution to the overall cultural significance of the route.
Where the booming breakers of the Indian Ocean relentlessly pound rocky shores, where temperate high forest and fynbos roll down to the sea, where ancient rivers carve their paths to the ocean down steep rocky ravines. This, “the place of much water”, is the Garden Route National Park’s Tsitsikamma. The heartland of the Park stretches some 5km to sea, protecting a wonderland of intertidal, reef and deep sea life. Dolphins frolic in the breakers, surfing and playing for the sheer joy of life, and the gentle giant of the ocean, the Southern Right Whale visits here, coming inshore to breed.

The African Black Oystercatcher (a red data species) is one of South Africa’s most threatened bird species and several pairs nest along the Park’s rocky coastline. The beautiful Knysna Louries with their gruff call are common sightings in the forest.

The Cape Clawless Otter (for which the famous Otter Trail is named), is a shy and elusive species that hunts crabs along the Park’s coastline.

Blue Duiker and Bushbuck are seldom seen but can sometimes be glimpsed browsing around campsites. Tsitsikamma has two rest camps, each with their own magic and charm; Storms River Mouth Rest Camp and De Vasselot Rest Camp in Natures Valley.
GETTING AROUND THE TSITSIKAMMA AREA

The **STORMS RIVER MOUTH REST CAMP**, is situated some 615km from Cape Town, 195km from Port Elizabeth and 68km from Plettenberg Bay.

The **DE VASELOT REST CAMP** in Nature’s Valley is 40km from the Storms River Rest Camp and 40km from Plettenberg Bay.

The access route from the N2 highway is tarred. Car hire is available at Plettenberg Bay, which is also the nearest airport (limited scheduled flights). Airports are also found in George and Port Elizabeth.

**Big Tree, Tsitsikamma**

This tree is a Yellow-wood giant, estimated to be approximately 800 years old; it is 36.6m high and nine metres in circumference. It will take you around 10 minutes (500m boardwalk) to walk to the Big Tree from the entrance.

It is undoubtedly one of the best known and most popular of the South African hiking trails and amongst the best trails in the world. This pristine indigenous 5 day trail offers some of the most spectacular vistas and landscapes along 42.5km of Tsitsikamma coastline, from the Storms River Mouth in the east to Nature’s Valley in the west. It traverses breathtakingly desolate coastline, wild river gorges and broken cliff faces with majestic waterfalls.

This walk will lead the visitor up to the world renowned suspension bridges of the Storms River Mouth. Starts at Sandy Bay (next to the restaurant) meanders along a winding board walk through indigenous forest to the mouth of the Storm River, the famous suspension bridge, the Stormsriver Mouth Cave (Khoisan Heritage Site) and to the Spirit of Tsitsikamma boat jetty. For the more energetic, the trail continues after the bridge and leads to the lookout point on the plateau. The journey to the bridge and back is approximately 40 minutes.

**Blue Duiker Trail** | 3.7km | 2 hours

This trail comprises the first 3km of the world-renowned Otter Trail. It follows along rugged coastline and to a spectacular waterfall which plunges into a deep pool before flowing into the sea. This trail is fairly strenuous and caution must be taken at high tides.
