2. BACKGROUND

2.1 Background of South African National Parks.

South African National Parks (SANParks), manages a system of parks which represents the indigenous fauna, flora, landscapes and associated cultural heritage of the country. All the national parks have overnight tourist facilities, with an unrivalled variety of accommodation in arid, coastal, mountain and bushveld habitats. National parks offer visitors an unparalleled diversity of adventure tourism opportunities that also include game viewing, bush walks, canoeing and exposure to cultural and historical experiences. Some parks also have conference facilities that give clients a wonderful meeting place and an opportunity for adventure activities.

South African National Parks is the leading conservation authority and is responsible for nearly 4 m hectares of protected land in all the national parks. The focus of SANParks in the first decade of democracy has been to make national parks more accessible to tourists in order to ensure conservation remains a viable contributor to social and economic development in rural areas. While the provision of access remains key, another area of focus is the growing of revenue to ensure long term sustainability of the organisation as the leading champion of conservation matters in Africa and beyond.

2.2 Background of the Wild Card Programme and the Wild Brand

The Wild Card is SANParks’ and the conservation partner parks’ (Msinsi Resorts and Game Reserves, Ezemvelo KZN Wildlife, Cape Nature and Big Game Parks of Swaziland) loyalty programme that allows access into more than 80 parks and reserves in Southern Africa. The Wild Card Programme is one of the largest conservation networks and a unified approach to conservation based eco-tourism.
Wild Card membership allows access into the parks and reserves, valid for 365 days from date of purchase with the added benefits of a quarterly Wild Magazine and a monthly E-newsletter.

The aim of the Wild Card Programme is to generate revenue for the sustainable management of protected areas in a responsible way. The development of Wild licensed branded apparel and merchandise, the product offering will be further diversified to generate revenue for the brand that will compete within the commercial environment.

3. SCOPE OF WORK

SANParks requires a company to conduct the brand valuation assessment of the Wild® brand in preparation of an extensive licensing programme, thus providing the framework for a monetary value model.

The financial value of a brand represents the economic benefit given by a brand over its expected economic lifecycle. The International standard or ISO 10668:2010 specifies a set of parameters for the monetary brand valuation that include the following:

- Financial
- Behavioural
- Legal

ISO 10668:2010 specifies requirements for procedures and methods of monetary brand value measurement and a framework for brand valuation, including objectives, bases of valuation, approaches to valuation, methods of valuation and sourcing of quality data and assumptions. It also specifies methods for reporting the results of such valuation.

The Brand Valuation Assessment will include a financial valuation of the Wild brand, given the Wild artifacts, commercial framework, the current number of Wild Card members, the future value of the brand based upon the projected lifetime value, and the legal component of copyright and trademark classes that Wild has registered for protection for the Wild brand. The geographical and historical Wild artifacts must be considered, to include key indicators such as sales, market share, market penetration, percent of full-price sales, average price per sale and incremental profit, etc.

4. DELIVERABLES - Reporting

Upon completion of the Wild brand valuation assessment, the successful appointed bidder is required to submit the brand valuation report based on the ISO 10668:2010 International standard.
The brand valuation report should clearly state the following:

4.1  Position and status of the appraiser;
4.2  Purpose of valuation;
4.3  Identification of the subject brand;
4.4  brand-related assets valued;
4.5  addressed audience/addressees;

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
