  Where these due diligence tests reflect defective pricing or pricing outside of the fair market-related price range, the evaluators will recommend price negotiation with the winning bidder to bring the price within the fair market-related price range as tested.

  Where the winning bidder does not want to participate in the price negotiation or provide a fair market-related price, SANParks cancels the award and commences price negotiations with the second bidder in the price/preference ranking.

ANNEXURE A: FUNCTIONALITY RESPONSIVENESS CRITERIA APPLICABLE FOR THIS BID

Bidders are not eligible for the Price and Preference scoring stage where they score less than the minimum threshold [75%] prescribed for functionality.

SANParks promotes the concept of “best value” in the award of contracts, as opposed to merely looking for the cheapest price, which does not necessarily provide the best value. Best value incorporates the expertise, experience and technical proposal of the organisation and individuals who will be providing the service and the organisational capacity supporting the project team. The minimum functional threshold will be 75%.

Any bidder who does not meet the minimum threshold will not proceed to the Price and Preference Stage of evaluation.
