07 June 2016

Dear M. Chamaano

**Request for Greater Giyani Municipality Waste Disposal Facility waste license.**

We, Envirolution Consulting have been appointed by SANParks to conduct a Basic Assessment In terms of Sections 24(2) and 24D of the National Environmental Management Act (Act No. 107 of 1998), as amended, and as read with the EIA regulations (Government Notices R. 983, and Government Notice R. 985 in Government Gazette 38282 of 04 December 2014), for the proposed Shangoni Gate Development within the Kruger National Park.

The scope of the proposed development is as follows:

- An entrance gate facility into the Kruger National Park (KNP) with a reception office, staff accommodation and facilities and an Environmental Education Centre.
- A picnic site.
- A tented camp and camping site.
- Construction of a new tar road of approximately 50, 6 kms from the Shangoni gate to the existing public road close to Bateleur Rest Camp.
- Construction of a low-level bridge over the Shingwedzi River
- Provision of bulk services including new sewer line and pump stations, new water supply lines, additional reservoirs and water purification plants.
- Provision of solar hybrid energy systems.

The proposed entrance gate will be located near the Giyani side (western border of the Park) of the fence, Limpopo Province; while the picnic site, camping site and tented rest camps will be located along the north banks of the Shingwedzi River inside the Kruger National Park.

The rationale behind the new gate is to stimulate socio-economic development among communities in the region and to provide easier access into the Park from Giyani and Thohoyandou. The current (restricted) ranger's road will be upgraded to tar roads that will allow visitors to travel towards the Shingwedzi and Mopani rest camps from the

new gate. Most of the surfaced road will follow the alignment of the existing gravel road, apart from a new section near the proposed entrance gate.

As part of the motivation in regards to waste disposal that must be submitted in the Basic Assessment report, I would request the Greater Giyani Municipality to supply me (Envirolution Consulting) with a copy of the waste license for the Greater Giyani Municipality Waste Disposal Facility.

Yours sincerely,

Thabang Sekele

Good day,

The municipality does not have a hazardous waste facility.

Regards,  
Mzamani Khosa.

Dear Mzamani,

Thank you for providing.

May I ask, does Greater Giyani have a hazardous waste facility?

Good evening Mavona

Please find out if the requested licence is for the current disposal site or the Landfill site, I think they are referring to the current site which we only have a closure licence not operating licence. Attached is the copy of the licence for the new site.

Kind regards
