(b) Internal: To serve as a condensed/ concise information document to guide staff on all key/ critical strategies, plans and policies linked to the core business of SANParks.

(2) Write and edit the five-year strategy for SANParks.

BACKGROUND

As a leading conservation authority, South African National Parks (SANParks) is a public entity under the jurisdiction of the Department of Forestry, Fisheries and the Environment (DFFE), where inclusive conservation as opposed to previous policies of exclusion is central to advancing the policies in line with the National Development Framework for Sustainable Development and the National Development Plan.

SANParks effectively enables and delivers on its holistic mandate through a system of 21 national parks, including three world heritage sites and ten marine protected areas (in terms of the National Environmental Management: Protected Areas Act No. 57 of 2003). Located largely in rural areas, national parks are catalysts for economic growth that can create employment and transformation in areas that generally lack such opportunities.

SANParks' estate represents approximately 70% of state-owned terrestrial protected areas and 22% of state-managed marine protected areas, comprising over four million hectares on land and almost 370 000ha at sea. In addition, five parks are integral components of Transfrontier conservation areas with Namibia, Botswana, Zimbabwe, Mozambique and Lesotho.

The National Environmental Management Protected Areas Act mandates SANParks to create destinations for nature-based tourism in a manner that is not harmful to the environment. SANParks generates approximately 80% of its operating budget from its ecotourism business, therefore fulfilment of its conservations mandate is heavily reliant on thriving and sustainable tourism operations.

SANParks was initially established in terms of the now repealed National Parks Act (Act 57 of 1976) and continues to exist in terms of the National Environmental Management: Protected Areas Act (Act 57 of 2003) with the mandate to conserve, protect, control and manage National Parks and other defined protected areas and their biological diversity (biodiversity). As a public entity, SANParks is also governed by the Public Finance Management Act (Act 1 of 1999 as amended by Act 29 of 1999) (PFMA), and it is listed as a Schedule 3 Part A: 25 public entity. In accordance with revised Treasury Regulations sections 5 and 30, issued in terms of the PFMA, to provide the necessary legal basis for implementation of the Framework for Managing Programme Performance Information, SANParks is expected to submit a fiveyear strategic plan, ideally subsequent to every national election cycle, linked to the identified outcomes of the Presidency, for approval by the DFFE Ministry as the executive Authority.

In order to realise SANParks' vision and fulfil its public-good mandate, SANParks developed four outcome goals, each supported by sub-outcomes. While Outcome Goal 1 is focused on realising the core conservation and sustainable environmental management mandate, it is primarily resourced through the Tourism work of the organisation directed through Outcome Goal 2.

Outcome Goal 3 ensures that the sustainable-use principle implemented through both Outcome Goal 1 and Outcome Goal 2 not only delivers benefits for communities, but also actively contributes to socio-economic transformation.

These three goals are enabled by Outcome Goal 4, or the organisational goal working towards an efficient, effective, world-class organisation through our people, finances, systems, stakeholder engagement and good governance.

The above is contained within the SANParks 5-year Strategy, ending March 2025. As per the Department of Planning Monitoring and Evaluation Framework and guidance, SANParks is in the process of developing its next 5-year Strategy including the seventh administration's priorities.
