This enables SANParks to focus on its core activity of conservation. It is intended that the project will be managed and operated by the Private Party in compliance with strict environmental standards maintained by SANParks.
- 1.4 In this document the PPP Opportunity ("**PPP Opportunity**") shall mean the right to manage and operate restaurant and retail facilities in both the Karoo and Mountain Zebra National Parks.

Bidders should only rely on written changes, additions, or clarifications from the duly authorised Project Officer of SANParks, circulated to each bidder. E-mail communications from SANParks to Bidders will count as written communication.

- 2.3 SANParks reserves the right to modify the timetable / schedule in Article 5 or otherwise amend, supplement, or clarify the RFP at any time. SANParks may cancel the bid at any time without prior notice and may disqualify any bidder as provided for in this RFP. 3. IDENTITY OF BIDDERS

- 3.1 A Bidder may be a single company or an unincorporated joint venture or a trust. The Bidder must meet the operational and financial criteria as contained in this document.
- 3.2 Public institutions are specifically excluded from submitting proposals or bidding for the tender.

- 3.3 Each submission must set out, in detail, the structure that will be adopted for the entity. The shareholders should be clearly identified, and their roles and responsibilities listed. The submission should list the equity, ownership and directorships held by the shareholders. SANParks requires that Interested Parties create a newly formed Special Purpose Vehicle (“**SPV**”) should they be declared the winning bidder. Individuals may not constitute a SPV – only legal entities. The sole purpose of the SPV will be to undertake the PPP Project. Where any parties are not shareholders but will be integrally involved in the operation of the SPV, such parties should also be listed. It will be expected that the SPV is legally constituted prior to signature of the PPP Agreement.
- 3.4 As the project might require a substantial amount of capital investment, Interested Parties must demonstrate their ability to raise debt and equity and to provide security to SANParks’ satisfaction.
- 3.5 Interested Parties will also be required to provide information on ownership of the entities of which the Interested Parties are comprised, together with organograms reflecting the ownership proportions.
- 3.6 When preparing submissions on the identity of the Bidders, Interested Parties are required to structure their submissions following the format:
- 3.6.1 submit to SANParks the information set out in Section 1A in relation to the Qualification Criteria;

- 3.7 SANParks reserves the right to request, at any time, additional information, or documentation from Bidders.
- 3.8 Where a Bidder is made up of a number of parties, shareholders in one SPV may not in any way be shareholders of other SPV’s bidding for the same PPP

Opportunity in the tender process.

Information on the opportunity

4. PPP OPPORTUNITY

The PPP opportunity is for the management and operation of restaurant and retail facilities in the Karoo National Park and the Mountain Zebra National Park for a period of 10 years.

The PPP opportunity available to Bidders is summarised as follows:

4.1 Introduction

SANParks, as part of its Strategic Plan for Commercialisation, identified the PPP Opportunity as a project that could be in demand, provide an opportunity for the Private Sector and contribute to SANParks' mandate through income generation.

It is intended that by SANParks entering into the PPP with a Private Party, SANParks may be able to generate additional revenue through PPP fees paid to organization by the Private Party, while enabling SANParks to focus on its core activity of conservation. It is intended that the project will be managed and operated by the Private Party in compliance with strict environmental standards set and maintained by SANParks.

4.2 Location Map

The locations for restaurant and retail facilities for both Mountain Zebra National Park and Karoo National Park are as outlined in Figure 1 and Figure 2 respectively:

It must be noted that the parks are approximately 350km apart.

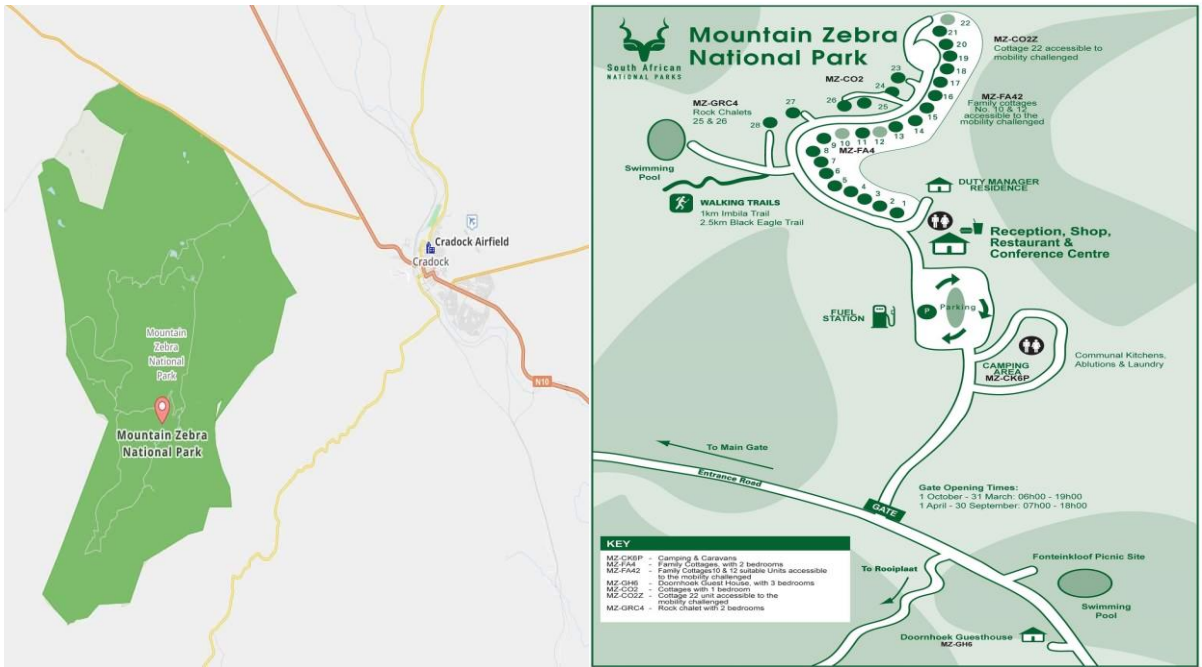

Figure 1: Location map for Mountain Zebra National

Figure 2: Location map for Karoo National Park

4.3 Specific Conditions and Description.

4.3.1 Description

The opportunity consists of:

- The restaurant and retail facilities in Karoo NP and MZNP will be managed by one operator.

4.3.2 Infrastructure Present

Restaurant and retail facilities in both Karoo NP and MZNP are existing and fully functional. The bidder may make internal changes to optimise operations. External changes to the infrastructure are to be approved by the park and be for the cost of the operator.

Mountain Zebra National Park: Operator to work with SANParks to present a bush braai product where SANParks will be responsible for the game drive and the operator responsible for the set-up of the bush braai area and preparation of food. This could be applicable to bush breakfasts and bush dinners – depending on market demand.

Bush Braai in the Karoo National Park: The operator could, in conjunction with SANParks present a bush braai on a non-exclusive basis. The restaurant operator will be the preferred operator for this product.

4.3.3 Operating hours

Trading hours for the restaurant and retail will be determined and agreed with park management but will most likely be as follows:

4.3.3.1 Karoo National Park

Restaurant (order placement): 7h00 to 10h00 (breakfast) and 18h00 to 21h00 (dinner). Morning drives that arrive back at approximately 10h30 should also be catered for. The restaurant need not be open for lunch where the shop stocks sufficient lunch pre-prepared items. If this is not the case then SANParks could request the restaurant to extend the hours to include lunch.

Retail: As a minimum 7h00 to 19h00 but can be negotiated with SANParks for optimal service.

4.3.3.2 **Mountain Zebra National Park**

Restaurant: 7h00 to 21h00 but could follow a model similar to that of Karoo

Retail: 7h00 – 19h00 (summer) and 7h00 to 18h00 (winter) – in-line with reception hours.

4.3.4 **Support Infrastructure**

4.3.4.1 **Water**

Water is present at the site, but the operator might be required to install more water points – the bidder will be responsible for the construction and cost of the pipelines, taps, etc.

There are water meters installed in Karoo National Park and water use will be measured. SANParks will use the KNP utility tariff document where a park specific document is not available.

Mountain Zebra National Park: SANParks will install a water meter that would allow SANParks to measure usage and bill the operator in line with the KNP utility tariff document where a park specific document is not available. The meter will be installed prior to operation commencement.

Mountain Zebra National Park: It will be a requirement for the operator to install a water refill unit in order to reduce plastic bottle usage.

4.3.4.2 **Electricity**

Electricity is present at the site, but the operator might be required to install more power points – the bidder will be responsible for the construction and cost of the cables, conduit and plug points.

There are electricity meters installed in Karoo National Park and will be measured. SANParks will use the KNP utility tariff document where a park specific document is not available.

Mountain Zebra National Park: SANParks will install an electricity meter

that would allow SANParks to measure usage and bill the operator in line with the KNP utility tariff document where a park specific document is not available. The meter will be installed prior to operation commencement.

The Private Party may install green energy solutions should there be a requirement for more stable electricity supply. SANParks to approve design of the system (solar) with the approval not to be withheld unreasonably. Only LED lighting to be used. Whilst SANParks will provide a back-up service through generator power, SANParks cannot guarantee the availability thereof.

4.3.4.3 **Waste**

Karoo: Waste removal will be done by the Beaufort West municipality once a week and will bill SANParks. SANParks will then bill the operator monthly in line with the tariffs document (KNP tariffs document to be used where a park specific document does not exist).

SANParks will try to negotiate bi-weekly removals with the municipality. However, if not achieved and where more removals are required, the operator will be required to do this themselves.

Where SANParks removes waste then SANParks would bill for the removals at the same rate.

Mountain Zebra: Waste to be removed by SANParks and the operator to be charged monthly in line with the tariffs document (KNP tariffs document to be used where a park specific document does not exist).

Karoo and MZ: It will be a requirement to apply good recycling principles – refer environmental section.

4.3.4.4 **Communications**

The Private Party to install land lines if required which could be linked up with the SANParks system (incoming calls only). Cell phone signal as is custom within most National Parks does exist and might be network related or of poor quality.

4.3.5 **Guest Activities**

No other activities will be allowed in both parks except the restaurant and retail facilities and bush braais (where agreed). Events may be done as part of the restaurant product. Where the event falls outside the footprint of the operator, SANParks will need to give approval for such an event which will not be withheld unreasonably. Where the conference facility is used, a fair fee for usage needs to be agreed.

4.3.6 Maintenance

All restaurant and retail assets are to be maintained by the Private Party.

Building Maintenance:

Private Party Responsibility:

The Private Party shall be responsible for the maintenance and renovation of all finishes and fittings of the interior of the restaurant and retail including electrical light fittings, sanitary ware, ironmongery, tiling, plastering, and painting. It includes but not limited to the following:

Where the Private Party makes any changes i.e. changes to the roof structure then the maintenance responsibility will move to the operator. This includes

installation of green energy solutions which will be maintained by the operator if installed by the operator.

The Private Party shall be required to develop and adhere to a maintenance schedule which is in line with the restaurant and retail facilities best practices.

The Private Party will be obliged to insure facilities that are constructed by them.

- external electrical system (supply up to distribution board excluding distribution board contents).

Where SANParks is responsible for maintenance but fails to perform within reasonable time, the Private Party may initiate the maintenance work. This can then be invoiced to SANParks provided that the Private Party provides a bill of quantities / quotations to show that the price asked is fair, such approval is given by SANParks and shall be deemed to vest with the SANParks Managing Executive: Parks or per the SANParks delegation framework. The Private Party will submit an invoice to SANParks once the work is verified to be of satisfactory standard.

26. SECTION 6 – B-BBEE PROPOSAL

Bidders should provide the following information, with supporting evidence wherever possible. Requirements for supporting evidence are described in Section 26.3.5.

26.1 SANParks will evaluate the Bidder's B-BBEE Proposal and will assess scores according to the methodology and weightings based on the *Amended Tourism B-BBEE Sector Code, 2015 Targets*.

26.1.1 Bidders that anticipate that the SPV will qualify as a Large Enterprise (SPV total annual revenue of R45 million or above), as defined by the *Amended Tourism B-BBEE Sector Code*, must complete the Large Enterprise Scorecard. Bidders that anticipate that the SPV will qualify as a Qualifying Small Enterprise ("QSE") (SPV total annual revenue of less than R45 million or above R5 million), as defined by the *Amended Tourism B-BBEE Sector Code*, must complete the QSE Scorecard.

Or;

26.1.2 Bidders that anticipate that the SPV will qualify as an Exempted Micro Enterprise ("EME") (SPV total annual revenue of R5 million or below), as defined by the *Amended Tourism B-BBEE Sector Code*, are not required to complete the B-BBEE scorecard. As part of the bid, the Bidder must confirm that the anticipated total annual revenue of the SPV will be R5 million or below, as well as confirm the percentage black ownership in the SPV. The following wording should be used by the Bidder:

"[Name of Bidder] hereby confirms that the total annual revenue anticipated for this PPP opportunity is R5 million or below, and will submit a sworn affidavit or certificate issued by the Companies and Intellectual Property Commission on an annual basis to confirm the total annual revenue of the SPV. In the case of total annual revenue exceeding R5 million, [Name of Bidder] will timeously notify SANParks and acknowledges that SANParks may require the SPV to complete the relevant B-BBEE Scorecard and meet the minimum threshold required by SANParks.

The SPV commits to [percentage]% black ownership, which will be

maintained as a minimum throughout the duration of the PPP Agreement.”

In terms of the B-BBEE Proposal, Bidders that anticipate that the SPV will qualify as an EME, will score as follows:

Black Ownership	B-BBEE Level	B-BBEE Proposal Score
100% Black Owned	Level One	100%
At least 51% Black Owned	Level Two	95%
Less than 51% Black Owned	Level Four	80%

Where the SPV’s annual revenue exceeds or falls short of the thresholds for a Large Enterprise, QSE or EME, SANParks may require the Private Party to submit a revised B-BBEE Proposal. In this case, a maximum transitional period of one year will be allowed for the SPV to achieve the new targets.

26.2 Commitments and Scoring

For Bidders anticipating that the SPV will qualify as a QSE or Large Enterprise, the relevant scorecard must be completed. The Bidder must make commitments in the ‘bid offered’ column and insert scores in the far right-hand column of the relevant B-BBEE scorecard below. If the percentage committed to by the Bidder is less than the target, then the score must be weighted accordingly; for example if the target is 1% and the maximum points to be scored are 5, and the Bidder’s commitment is 0.5%, then only 2.5 points will be scored. If the percentage committed to by the Bidder is equal or more than the target, the full points will be scored. These commitments will become binding in the PPP Agreement. SANParks will confirm the scoring on the basis of supporting information provided, and may use an accredited B-BBEE rating agency for this purpose.

26.3 B-BBEE Scorecard Definitions and Measurements

26.3.1 All B-BBEE definitions used are consistent with those used in the *Amended Tourism B-BBEE Sector Code, 2015*.

26.3.2 All measurements of scores are calculated consistently with those used in the *Amended Tourism B-BBEE Sector Code, 2015*
